

# Hiba Tahir

WordPress Developer

## About me:

I am a dedicated WordPress developer with two years of hands-on experience in creating, customizing, and optimizing websites. My expertise lies in leveraging WordPress to deliver user-friendly and responsive design. My passion for web development drives me to continuously learn and adopt new technologies, ensuring I stay current with industry trends.

## Work Experience:

### WordPress Development:

I have created numerous websites for various businesses using WordPress, which fulfill their objectives and enhance their online presence.

### Theme & Plugins Customization:

Improve the layout and functionality of websites by customizing themes and plugins to get better results in search engines.

### Support and maintenance:

Resolving errors and technical features of websites and providing post-launch support to clients to enhance website capacity and run smoothly.
